

MASSAUTO®

Dinsec

Insect remover

A-497

DATA SHEET

Characteristics:

Product composed of very slightly alkaline ingredients and degrades organic material very effectively (remains of insects). Does not harm paintwork and parts containing rubber.

Instructions for use:

Apply directly on the grease if there is encrusted dirt, leave it on for a moment and rinse with water. Dilute the product with water on a 1:3 ratio if there are still mosquito's residues and apply it on the surface. Rinse with water. If big surfaces have to be cleaned, dilute the product with water on a 1:10 ratio and apply it.

Technical data:

Product liquid: pH (1%) 10-12

Solvents: Remove the remains of insects.

Colour: Light yellow

Density: 1.060-1.080 Kg/l.

Moisturiser: Increases the efficiency of the alkaline components and helps for the product to penetrate the accumulated fat.

Surfactants: Fat emulsion and detergent power. Facilitates the removal of saponified fat.

Packaging:

Boxes of 4 large bottles of 5 litres.
Stackable large bottles of 10 litres.
Stackable large bottles of 20 litres.

*Lid with safety seal and inner sealing gasket for safety during transport and handling.
